We will develop workshops related to the circus world:

- Initiation workshops to circus disciplines.
- There will be workshops and group dynamics to learn and develop the different techniques that belong to the world of the New Circus: juggling, balancing, acrobatics, dance, body expression, stilts, aerial techniques, etc.
- Workshops and Tent Activities: Circus techniques will be put into practice and techniques of expression that are used in the circus will be developed: clowning, pantomime, dramatization, percussion, staging, choreography, etc.

- Environmental activities.
- Complementary workshops.
- Evening activities: designed by the team in charge and the participants.

COMPLEMENTARY ACTIVITIES

The development of complementary activities comprises the leisure and fun part of the Volunteer Camp, in this sense we would like to thank the volunteers for taking part with activities that encourage participation and promote the responsible use of natural areas.

Excursions will be made to tourist sites and places of cultural interest in our region.
